

**This holiday season check all smoke alarms,  
To make sure your loved ones come  
to no harm!**

Smoke alarms are very effective at detecting smoke from fire but they do require some simple maintenance:

- Replace smoke alarms every 10 years
- Replace smoke alarm batteries 2x per year (how about when you change the clocks?)
- Test smoke alarms monthly
- Ensure smoke alarms are in every bedroom and on every floor of the house.
- It is best to use interconnected smoke alarms. When one sounds they all sound.
