

Auditor Training

This 2-day **in-person** or **scheduled online** workshop is the last workshop you take to become a Certificate of Recognition (COR) Auditor. You must successfully complete the OHSMS workshop first. Learn to plan, conduct, complete and submit audits under the Partners in Injury Reduction (PIR) program—audits that align with the protocols and the standards required to achieve a Certificate of Recognition (COR). In order to receive a certificate of completion, you will complete an open-book competency exam and achieve a score of 80 percent or more. After successful completion of the course, you will be eligible to conduct your qualifying audit, which allows you to become a CCSA approved auditor.
