

Health and Safety Committee/Representative

This ~8-hour **in-person** or **scheduled online** workshop is the government-required training that Health Safety Committee Co-Chairs and Representatives must take, and that we recommend all Committee members take. Get an overview of all topics related to be an effective Health and Safety Committee including: safety culture, hazard assessment, work site inspections, incident investigation, laws, writing an employer recommendation, terms of reference, and how to be an effective committee, among many others. This is an information-dense course that prepares you to meet your legislative requirements and provides you with all of the reference material you need in your role as a Committee member, Co-Chair, or Representative.
