

# SUMMER SAFETY SEGMENTS

As the summer months are approaching so can the occurrence of severe weather.

It is important that we are prepared for anything since severe weather can occur at any time and fast.

## BE PREPARED

### DIRECTIONS

Start out the discussion by setting the expectations for creating a safe space and being respectful of everyone's feedback. Watch the short video, "[It Started Like Any Other Day](#)". After everyone is done, use the guiding questions to facilitate a group discussion.

### SAFETY SEGMENT DISCUSSION

#### Guiding Questions:

- Of the severe weather situations discussed in the video which might our facility face?
- Would you be prepared if one of these occurred?
- Have you every been part of any of these extreme weather events?
- Do you have emergency alerts on your phone?

#### Note to Team Leader:

- Facilitate an atmosphere of support and openness by encouraging the staff to openly share what they know or don't without fear of reprisal. Encourage staff to ask questions. We want staff to ask questions now then not know during the emergency.

Follow the CCSA and check our other resources.
