COR Audits By the Numbers

COR Audits Received by Month

Register Your Audit

2023 is here and it's never too early to start planning your audit for the year!

1. Don't forget to **decide on a date** to conduct your 2023 COR Audit.

2. Once your audit date is set, visit our [website](#) to **register your audit**.
3. Once registered, your audit contact and auditor will **receive the audit tool**. If you need to hire an external auditor to conduct your audit you can view the updated [external auditor list](#) on our website.

Remember, CCSA's suggested deadline for your audit submission is **November 30**. This allows time should there be any concerns with the audit, including critical errors found during the quality assurance process.

UPDATE

Action Plan - Update

Element 10 of the COR audit requires that an Action Plan be developed and deficiencies from the previous audit addressed. Question 10.07 in the audit tool has been updated with a wording change from “may” to “must”. It is recommended that organizations review their 2023 Action Plan and ensure that it includes these 3 items:

1. Measurable action items
2. Proposed completion dates
3. Individuals responsible for follow-up

Visit our [website](#) for other updates to the 2023 Audit Tool.
