

# MARCH SAFETY SEGMENTS: YOUR HEALTH AND SAFETY COMMITTEE

Health and safety committees (HSCs) are an integral part of the safety culture of any organization regardless of the organizations size or complexity. HSCs serve a vital purpose beyond being drivers of a healthy safety culture, they are stewards of the safety programs within the safety management system.

## HOW SAFETY LEADERS CAN CREATE CHANGE - THE SAFETY COMMITTEE

### DIRECTIONS

Sometimes we need change to occur but you are the only one championing that change. How can we get the message across, how can we influence change? Regardless of where you sit in the organizational hierarchy, you have the potential to be a safety leader. The best way to bring about change is to form a coalition. Your coalition can be the safety committee.

### SAFETY SEGMENT DISCUSSION

Guiding Questions:

- Have you noticed a safety concern but were not sure how to get it fixed?
- What is our policy and procedure for reporting safety concerns and hazards?
- Did you know you can report issues to the Health and Safety Committee
- Do you know who the safety committee members are?
- Do you know how to contact the safety committee?

Follow the CCSA and check our other resources.
