

# SAFETY CULTURE | APRIL SAFETY SEGMENTS

A culture is the shared attitudes, beliefs, and values of a group. In the workplace a culture is the shared attitudes, beliefs, and values an organization commits to that influences their practices in pursuing their organizational goals. When you consider that definition, a safety culture is the shared attitude and belief that safety must be amongst the highest values that guides an organization, meaning, safety should influence every function within an organization while pursuing their main goal of providing services or producing goods.

## INTERNAL RESPONSIBILITY SYSTEM

### DIRECTIONS

Start out the discussion by setting the expectations for creating a safe space and being respectful of everyone's feedback. Print out or share an electronic copy of "[Health and Safety Legislation in Canada](#)" by the Canadian Centre for Occupational Health and Safety. After everyone is done, use the guiding questions to facilitate a group discussion.

### SAFETY SEGMENT DISCUSSION

#### Guiding Questions:

- What does the Internal Responsibility System do?
- What role do the workers play when it comes to the Internal Responsibility System?

#### Alternative Activity:

Instead reading the handout, you can watch this video about "[Working together to make the workplace safer](#)" from the Health Sciences Association of Alberta

- How does the Internal Responsibility System work?

Follow the CCSA and check our other resources.
