

EMERGENCY RESPONSE PLANNING

Workplace emergency planning is vital for ensuring the safety and well-being of employees, residents, and visitors during unforeseen incidents.

Comprehensive plans minimize risks, facilitate effective responses, and mitigate potential damages, safeguarding all individuals involved

SHELTER IN PLACE

DIRECTIONS

As climate change progresses, more energy is being put into the atmosphere. This means extreme weather will occur more frequently every year. Ask participants to consider what to do when a tornado warning happens at work.

Show participants the following tornado safety video [HERE](#) (2minutes)

Quickly go over what your staff is supposed to do incase of a Tornado warning.

SHELTER IN PLACE - TORNADO

When informing your staff about what to do in case of a tornado warning, make sure each person knows:

- Where the safest place in the building is
- What needs to be done by them
- Who they are responsible for helping (if they can do so safely)

Follow the CCSA and check our other resources.
