

## November 2024 Health & Safety Minute

### In this month's edition...

- [Introducing Our New Hazards and Inspections Course](#)
- [Safety Segments: Preventing Slips, Trips, and Falls](#)
- [Safety Bytes: "Importance of Safety Reporting" - Ask Annie](#)
- [OHS Member Forum: Emergency Response Planning](#)
- [CCSA White Paper "Protecting Workers' Safety in Managing the Risks of Violence, Harassments & Responsive Behaviors"](#)
- [2024 Member Engagement Survey Report Here](#)

## Introducing Our New Hazards and Inspections Course

We have streamlined our previous Hazard Assessment and Work Site Inspections Instructor-Led courses into one comprehensive, efficient training.

Now, you can gain essential skills in hazard identification, assessment, and control while learning to conduct thorough work site inspections - all in less time and at reduced cost. This course provides practical knowledge to help you maintain a safer workplace for yourself and your team.

## Safety Segments: Preventing Slips, Trips, and Falls

*Safety Segments offer information and resources you can use during safety huddles, team meetings, etc. The discussion guide pulls everything together.*

Every year many working Canadians fall victim to injuries from slips, trips, and falls. In fact, 20% of all workplace injuries result from a fall from the same level. At the CCSA, we are working to [stand up to slips, trips, and falls](#) with our November edition safety segment. This issue helps to pinpoint causes of falls from the same height and offers some prevention methods.

## Safety Bytes: "Importance of Safety Reporting" - Ask Annie

*The CCSA Safety Bytes are short "byte-sized" videos about safety topics and tips that will help increase awareness and skills for our members. Stay tuned for a different topic every month!*

Safety reporting has a critical role in maintaining a safe workplace. It is essential because, without it, we can't address potential dangers or understand incidents fully. Annie shares with you FOUR key issues that should always be reported: Hazards, Incidents, Near Misses, Violence, and Harassment.

## OHS Member Forum: Emergency Response Planning

Join us for the upcoming **Free Virtual Event on November 19, 1:00 - 2:00 p.m.** This is a unique opportunity to engage directly with a Fire Chief, who will be presenting on Emergency Response Planning. The forum will not only cover essential safety practices but also offer an open Q&A session, where you can ask questions and discuss specific challenges. Don't miss this chance to connect with safety-minded professionals and enhance your knowledge in a supportive, collaborative environment.

## CCSA White Paper "Protecting Workers' Safety in Managing the Risks of Violence, Harassments & Responsive Behaviors"

This whitepaper delves into various trends and strategies, evaluating their effectiveness and impact in different operational contexts. It highlights psychosocial risk factors, including burnout, turnover rates, and the impact of regulatory compliance on staffing decisions. By understanding these elements, organizations

can develop robust staffing models that not only enhance worker well-being but also minimize risks of violence and harassment and improve overall service quality.
